

ENGEL Management Streamlined

Schwertberg/Austria – April 2010. Hans Wobbe (57) will be leaving the management of ENGEL Holding on 31st July 2010 for personal reasons.

With responsibility for technology and production, Mr Wobbe intensively pursued the development of the electrical machines and the integration of our production locations to a production network in the course of the past six years. CEO Peter Neumann will now be assuming his duties. The owning family and the management regret Mr Wobbe's decision and express their thanks to him for his excellent work.

ENGEL AUSTRIA GmbH

The ENGEL brand denotes the world's biggest manufacturer of injection moulding machines and, at the same time, one of the world's leading plastics processing machine manufacturers. Today, the ENGEL Group offers a full range of technology modules for plastics processing as a single source supplier: Injection moulding machines for thermoplastics and elastomers, and automation, with the assurance that individual components are also competitive and successful in the world markets. With eight production plants in Europe, North America and Asia (China, Korea) as well as subsidiaries and representatives in over 85 countries, ENGEL offers its customers the optimal global support they need to compete and succeed with new technologies and leading-edge production systems.
